

Could you inspire undergraduates to enter your profession?

Shaping Your Future

We are looking for volunteer Career Mentors to support undergraduates in their career planning and to give a realistic insight into different professions.

There is still considerable inequality for graduates from less advantaged backgrounds in securing professional employment. Your involvement could make a real impact on the future of our students.

What's involved?

- You provide us with a few details which will be included in a dedicated area on our website listing all our Career Mentors by first name, with a short biography – no personal contact details will be included
- Our students select the right Mentor for them and we manage the introduction process
- There will be no face-to-face contact, the student asks you questions via e-mail and you reply at a time that is convenient for you

In association with
